

Engineering Scholarship

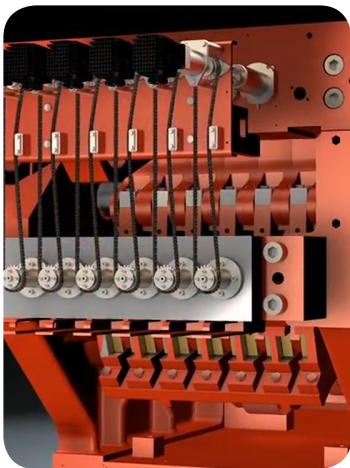

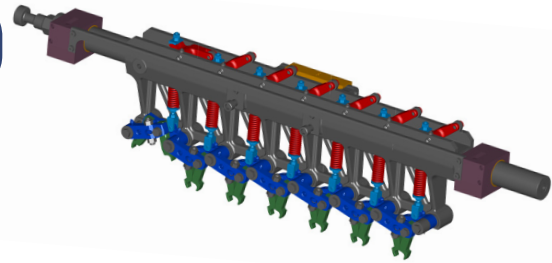

advanced manufacturing capability and worldwide network of sales and service locations, National Machinery has firmly established its position as the “World Leader in Metal Forming Technology”.

National Machinery is a global leader in advanced cold forming machinery, process technology, and customer support products & services. Through our continuing research and development,

National Machinery continues to be the industry leader that now spans 140+ years. To be successful over that significant period of time, we rely heavily on the creative skills of our engineering staff who serve as the backbone of our company. Given the importance of developing new engineering talent, National Machinery is committed to offering a special scholarship program to attract, educate, and train engineers who will continue our success in the years to come.

Engineering Scholarship Program

- Awarded to a maximum of two high school seniors per year
- \$10,000 scholarship per year for up to 5 years
- Employment during co-op periods and summer breaks
- Post-graduation employment of a minimum of five years

Eligibility

Rules:

- Before any funding is provided, the student must submit proof of class registration as a full-time student.
- Student must submit a transcript at the conclusion of each quarter or semester. Student must maintain a 3.0 minimum GPA or risk termination of scholarship funding. If the student's GPA falls below the 3.0 threshold, the student is obligated to initiate a review with National Machinery management to determine the path forward.
- If the student drops out of school, changes field of study, or falls below the minimum GPA level, the scholarship can be terminated and may require repayment of funding paid to date.
- The student is expected to work at National Machinery for summer breaks and any co-op periods paid on an hourly basis. The work experience will include various assignments in the factory and in Engineering.
- Post-graduation employment at National Machinery for a minimum of five years at competitive salary rates. The graduate must pass National Machinery's standard protocol for employment that includes a background check and drug screening. If the student fails this screening process, the scholarship funding is to be repaid in full.
- Winners of the National Machinery Foundation Scholarship are not eligible for the National Machinery Mechanical Engineering Scholarship.
