National Machinery Foundation

Engineering & Technology Scholarships

The National Machinery Foundation has been providing financial assistance to students for more than 60 years through various scholarship and citizenship programs. The board of trustees of the foundation recognizes that with increased costs of tuition, greater incentives are needed to encourage area students to pursue advanced degrees needed in the manufacturing industry. It is well known that there is a need in the area for workers with training in the engineering sciences and technology. Scholarships are being offered again for students interested in these fields beginning with the fall enrollment of college students.

Scholarship Program

- Awarded to a maximum of four high school seniors per year
- \$3,750 scholarship per year for a maximum of 4 years

Eligibility:

- Limited to high school seniors attending Seneca County area schools (list of eligible schools following) or children of National Machinery LLC employees.
- Must be enrolled with an accredited college or university in pursuit of a 4-year Bachelor of Science degree or a 2-year associate degree in a technical field of study in the manufacturing industry.
- Student must submit an application form, high school transcript, and letter of recommendation from a school official.
- The winner of the National Machinery Foundation Engineering Scholarship is not eligible for the National Machinery Foundation Science & Technology Scholarship.

Eligible Schools:

- | | |
|-----------------------------|---|
| • Bridges Community Academy | • North Central Ohio Education Service Center (Tiffin Campus) |
